### Why This Matters:

Each year, arsonists destroy nearly a \$1 Billion in insured property and kill hundreds of people nationwide.

Arson is one of the leading causes of civilian deaths and the leading cause of property loss.

In 2010, 15,475 law enforcement agencies provided 1-12 months of arson data and reported 56,825 arsons.

Nationwide, there were 19.6 arson offenses for every 100,000 inhabitants.
